An enthusiastic and dedicated programmer and web designer, who enjoys being part of, as well as leading a successful, productive team. Is quick to grasp new ideas and concepts, also in developing innovative and creative solutions to problems. Can work well on own initiative and is able to demonstrate this to high quality meeting tighter deadlines, thriving on pressure. Taking part currently in the first year of a Software Engineering course, looking to develop and learn skills in software engineering, and providing fine detail towards key programming languages and their concepts.

PROFESSIONAL EXPERIENCE AND SIGNIFICANT ACHIEVEMENTS

Key Achievements and Skills

- Hard working, and puts the effort into work presented. Will put full attention into understanding if a topic is new or difficult.
- An excellent team worker who integrates easily and efficiently with other members in the industry or others working on a project in order to get a task done as best as possible. (Worked in a group project in the first year of University, playing a key role in the designing of, and implementation of a GUI java program concerning class designing. Showed good communication, meeting regularly every two days)
- Using knowledge of CSS styles and HTML coding has created successfully a webpage that is easily modifiable, simple, and good looking.
- Has had experience and has an adequate knowledge of a number of different programming languages (VB, Pascal, Haskell, Java, PHP, Shell-script, Perl, JavaScript, HTML, Linux Commands and Windows Commands).

EARLY CAREER BACKGROUND

Company	Position Held	Dates
RSPCA	Data input/ Database creation.	Jan 2007- Feb 2007

- **RESPONSIBILITY 1: ORGANISED A NEW FILE SYSTEM USING SPREAD SHEETS AND DATABASES. IMPROVED ON THE PREVIOUS SYSTEM BY ORGANISING AND CREATING NEW SETS OF DATA SORTING.**
- **RESPONSIBILITY 2: FILLED AND CORRECTED FILE INFORMATION FOR CUSTOMERS OF RSPCA, INCLUDING THEIR PETS.**
- **RESPONSIBILITY 3: CREATED SMALL BROCHURE TO THE ORGANISATIONS REQUIREMENTS, AND DRAFTED THIS TO ANOTHER MEMBER OF STAFF, WHERE IMPROVEMENTS WERE REQUESTED AND PERFORMED.**

ACADEMIC BACKGROUND

- | | | |
|--|------------------------|------------------|
| <ul style="list-style-type: none">• Currently studying a course in Software Engineering MEng (5 Years containing an industrial and Masters Year). On target for a 2:1. | Aberystwyth University | 2011-
Present |
|--|------------------------|------------------|

- 3.5 A-levels (Including Software Development: Distinction, Applied IT: B, Mathematics: C, Applied Business: C) Also Extended Project: B, Key Skills: Pass. Huddersfield New College 2011
- 15.5 GCSE's (Including- Maths: A, Business Studies BTEC: A*, IT: A, Food Technology: B, English: C) Also Level 2 English and Maths. The Ridings School, Halifax 2009

PROFESSIONAL DEVELOPMENT

- Attended 'Green dragons den' event in which had been made Team leader of a group against several other groups for creating a green business. Came up with, and presented a business idea to a team of leading business owners from the town of Slaithwaite.
- Held mock interviews between students and business owners in a county wide held business event with the likes of Entrepreneur Theo Paphitis from the dragons den.
- Helped demonstrate maths to primary school children in a maths challenge, held at a science museum.
- Worked with children in local area of university, where I was a referee in a football tournament for primary and secondary school children.

INTERESTS AND ACTIVITIES

Currently include Badminton (In which I represented college in), Mountain biking, Running (5 marathons completed) and Computing.

OTHER INFORMATION

- Have always been inspired and interested in the workings of hardware and software technologies' of computers and likes to investigate these in own free time.
- Completed an extra module at college worth half an A level in own free time which I achieved a B grade at for my Visual Basic GSCSE maths revision program.
- Have been created a 'Rule model student' at Huddersfield new college for the IT department and this has been published around the college, on the web site, and in the town newspaper.
- Have only ever missed one day of lessons throughout school and college life receiving numerous 100% attendance awards.
- Mathematical skills has always been very good, and something I have always been very interested in, which provides a great help in programming work for instances calculating algorithms etc.
- Keeps on top of work, checking emails more than twice a day, and keeps good communication between teams/ clients. Have wordpress, LinkedIn, Twitter etc.
